Specialty Products

Philadelphia Macaroni Company pasta shapes are limited only by your imagination. Our research and development team works with you to design the shape that best complements your marketing plan. With complete confidentiality, Philadelphia Macaroni Company's R&D group can take your product from the design stages through packaging trials.

Our innovative technologies and diverse manufacturing capabilities take advantage of the best of all worlds - from "old-fashioned, handmade" cuts unique in today's market, to products dried with Ultra-High Temperature equipment.
