

GENETICALLY ENGINEERED (GE) FOODS STATEMENT

Below is a list of the ingredients used in our macaroni and noodle products. The ingredients are not produced with Genetic Engineering ***with the exception of GMS.*** Please refer to the formula in your specification(s) to determine if GE labeling is required on your finished product.

Ingredient Name	Status	Comments
All flour products milled from durum wheat and hard white wheat	Not produced with Genetic Engineering	No commercially available GE crops
Eggs, egg yolks, egg whites- dried	Not produced with Genetic Engineering	
Pasta enrichment	Not produced with Genetic Engineering	
Spinach powder	Not produced with Genetic Engineering	
Red beet powder	Not produced with Genetic Engineering	
Red bell pepper powder	Not produced with Genetic Engineering	
Tomato powder	Not produced with Genetic Engineering	
Wheat gluten	Not produced with Genetic Engineering	
Glycerol Monostearate (GMS)	Produced with Genetic Engineering	Derived from corn which is a GE crop. Proteins are not present, but by definition GE must be declared. Used at 0.5 to 1.5% in very few products..

If you have any questions, please contact your customer service representative or e-mail QADocs@philamacaroni.com.

Thank you,
